PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with 5+ years of hands-on experience specializing in the **MERN** stack (**MongoDB, Express.js, React.js, Node.js**). Skilled in building scalable, high-performance web applications with strong expertise across both **front-end** and **back-end** development. Adept at crafting robust solutions, optimizing application performance, and working collaboratively with cross-functional teams to deliver business-driven outcomes. Seeking a challenging role to apply technical skills and innovative thinking in a fast-paced, growth-oriented environment.

PROFESSIONAL EXPERIENCE

Ocean Academy

April 2024 - 2025 - Present

Senior Software Developer

Led a cross-functional development team using **Agile Scrum** methodologies to deliver **high-quality web and mobile applications**. Oversaw sprint planning, code reviews, and architecture decisions, ensuring timely delivery and adherence to best practices. Collaborated closely with stakeholders to define requirements and transform them into scalable, maintainable solutions.

Ocean Academy

April-2020 - March-2024

Fullstack Developer

Built scalable web and mobile applications using the **MERN** stack and **Flutter**. Led **frontend** and **backend** development, crafted intuitive **UI/UX**, integrated **REST APIs**, and optimized performance across platforms. Delivered responsive, cross-platform solutions in collaboration with cross-functional teams.

PROJECT

OA Techfest (Booking System)

Built a full-featured event booking web app using the **MERN** stack, with integrated online payment processing. Led the design of **UI/UX, MongoDB** architecture, and developed both user-facing ticket booking flows and an admin dashboard for event and booking management. Managed a team to deliver a responsive, scalable platform that streamlined event coordination and ticket sales.

OA Job Portal (Candidate, Recruiter and Admin)

Build a robust recruitment management system with role-based modules for Candidates, Recruiters, and Admins. Architect the platform using **React.js, Node.js, MongoDB**, and **Firebase**. Design job lifecycle workflows, recruiter dashboards, and admin tools. Lead a development team, driving **UI/UX, database modeling**, and **performance optimization**.

Green Puducherry(Tracking System)

Led the Green Puducherry government project to track plantation records, architecting the system with **MERN** (admin panel) and **Flutter** (mobile app). Designed the database, **RESTful APIs**, and led **UI/UX** design to deliver a seamless, real-time plant monitoring experience.

OA Live(Online Learning Platform)

Successfully developed and launched OA Live, a scalable online learning platform using **React.js, Node.js (Express)**, and **MongoDB**. Streamlined remote education with a user-friendly UI, enhancing accessibility and learning flexibility for a diverse student base.

EDUCATION

MAY/2025

Diploma in Computer Engineering
@Padalesuwarar college

MAY/2015

High School
@Amalorpavam Higher Secondary School

SKILLS

JavaScript, React, Node.js, Express.js, MongoDB, Firebase, HTML, CSS, Redux, Tailwind, Material UI, Bootstrap, Figma, Adobe XD, Flutter, Dart, Python, Photoshop, Premiere Pro
